ACTIVITY WORKSHEET 7.1

Documenting Agricultural Equipment-Related Injuries or Incidents on Roadways

Directions: Many local papers and on-line sources list all motor vehicle incidents or crashes that occur each day or possibly on a weekly basis. Review this log of events for the past three weeks, and document any that involved agricultural equipment. This might include crashes, spills of grain or manure, or equipment breakdown. Summarize them in the space below. Conduct an on-line search for the incidents by using search terms such as "farm accident," "tractor accident," "motorist collides with farm equipment," "slow moving vehicle involved in crash."
