

Name: _____

ACTIVITY WORKSHEET 7.2

Safe Travel on Roadways

Directions: Using the information presented in Lesson 7, fill in the blank to make a correct and accurate statement.

1. The maximum legal width for agricultural equipment when operated on roadways is typically ____ to ____ feet.
2. The maximum allowable weight of agricultural equipment in most states is not to exceed _____ pounds.
3. The maximum height of agricultural equipment when operated on roadways should not exceed ____ to ____ feet.
4. Most states require the use of an _____ on all agricultural equipment that typically travels at speeds not exceeding ____ mph.
5. SMV signs placed on the rear of agricultural equipment should be ____ to ____ feet above the ground and _____ on equipment with point up.
6. SMV signs should be replaced when faded or every ____ years.

Note: The rules regulating the operation of agricultural equipment on public roadways may be different in your state. Please check with your State Department of Transportation for regulations specific to your state.

Bonus: Check with your State Department of Transportation's website for rules governing the operation of agricultural equipment on public roadways. Then, update the items above. Did you find other regulations such as age restrictions on the operator?
